

## Tutorial for Personalized 8.5" X 11" Imagewrap Hardcover Portrait Photo Book

 Download and install the HP Photo Creations software. http://www.hp.com/global/us/en/consumer/digital\_photography/free/software/photo-creations.html (available for PC and Mac version)

Next download and install the doPDF software for printing pdf format. http://www.dopdf.com

 Open the HP Photo Creations software; select the region icon on the top right; by default is Region: Malaysia. (Photo A). Choose **United States**, click OK button.
 It will ask you to start over again. Click the **"Start Over"** button. (Photo C)

Click on the "Choose a Theme" button. \_ 

- There are thousand of theme for you to choose... Select any theme you like...

- Click **"My Computer**" button and upload the photo you wish to insert in the photobook. Then click the "continue" button.

- You can choose either one of the layout option "Automatic" & "Manual" for photobook. Pls add to 41 pages... the last page will be the back cover...

Click "Continue" button to go to next level.

- Click the "Edit" button to edit the layout.

- Pls click on the lock icon to unlock the page so that you can move the page wherever you like or delete 1 page rather than 2 pages together...

- Once you had finished the layout of the photobook... please save the photobook for editing later or anytime.
- Please click "**Print**" button to print the file in PDF format once you are happy with the layout of the phobook.
- Pls select the spec as below
  Printer : doPDF v7 (pls download & install from www.dopdf.com);
  Paper : Letter size (8.5" x 11");
  Orientation : Portrait ;
  Image Size : Scale to Fill (crop image)
  Pages: Print all pages
